

# Míriel

Míriel Serindë was the first wife of Finwë. Their son was Fëanor.

Míriel's hair was described as being silver in appearance, an unusual colour for one of the Noldor.

After giving birth to Fëanor she wished to die, something which was impossible because, as an Elf, she was immortal within Arda. Instead her fea departed from her body, and she entered the halls of Mandos: in essence she had died of free will.
