

# Oluë

Oluë is king of the Telerin Elves of Aman, and younger brother of Elu Thingol, King of the Sindar.

Eluë and Oluë were both lords of the third clan of the Elves, the Teleri, and together they lead their people from Cuiviënen to Aman. However, during a long wait in Beleriand Eluë disappeared. After years of searching, Oluë grew impatient, and led the greater part of the Teleri to Valinor, on the insistence of the Vala Ulmo.

Oluë became lord of the island of Tol Eressëa, where the Teleri built a great number of cities, and grew in number. When they finally came to Eldamar some centuries later, Oluë became King of Alqualondë. His daughter Eäruen married Finarfin, son of Finwë, and later High King of the Noldor in Valinor, and thus their children, when these returned to Middle-earth, could claim kinship to Thingol.

Lord of the Teleri in Aman
